Hamilton Training Advisory Board
Commission consultative sur la formation à Hamilton

Dear Community Partner,

Each year HTAB hosts the TOP forum where members of our community gather to learn about Hamilton's labour market issues and to determine a strategy that will address these issues in the year ahead. This strategy will be released as the *2007 TOP Report* on January 15th at HTAB's Annual General Meeting.

This year's TOP Community Forum will also feature opportunities to network and to collect information on local organizations. In addition, we will report on the progress of projects and partnerships recommended by participants at last year's TOP forum.

I hope you'll join with other community leaders in this exciting opportunity to generate labour market solutions. Seating is limited so please call 905-521-5777 today to register.
